

## CCM Competition Handbook Updates 2017

- All references to 2017-specific information including dates, officers, schedule, etc.
- Added C7 Grand Sport Class N to autocross classing tables. p.6
- Added allowance for two-piece rotors in Group 1S, 1, & 2. This aligns our rules to the NCCC allowance added this year. p.8 & 12
- Corrected class bumping procedure (Groups 1S, 1, & 2) text to the updated F/G and J/K classes. p.14
- Updated Concours competition points table. The updated table makes it a little harder to score 35 points (99+%), and then points fall away quicker as % score drops. This will provide more class points separation for all cars in a given concours class. Also changed minimum points to 20 for <84% to be consistent with minimum points awarded for autocross, drags, etc. p.33
- Added clarification to CARS award description, changed “will be presented to *the* member” to “will be presented to *each* member”. p.35
- Added statement giving two worker points for all who attend a membership meeting and sign in. p.37
